Human Settlement on Mars

Mars One aims to establish a permanent human settlement on Mars. Several unmanned missions will be completed, establishing a habitable settlement before carefully selected and trained crews will depart to Mars. Funding and implementing this plan will not be easy, it will be hard. The Mars One team, with its advisers and with established aerospace companies, will evaluate and mitigate risks and identify and overcome difficulties step by step. Mars One is a global initiative whose goal is to make this everyone's mission to Mars, including yours. If we all work together, we can do this. We're going to Mars. Come along!

"Once on Mars, there are no means to return to Earth. Mars is home. A grounded, deep sense of purpose will help each astronaut maintain his or her psychological stability and focus as they work together toward a shared and better future."

Truly, truly, I say to you, unless a grain of wheat falls into the earth and dies, it remains alone; but if it dies, it bears much fruit.

“the seed

- growth of plants in nature
- Parables ... cycle of life

The kingdom of God is as if a man should scatter seed on the ground. He sleeps and rises night and day, and the seed sprouts and grows; he knows not how.

The earth produces by itself, first the blade, then the ear, then the full grain in the ear. But when the grain is ripe, at once he puts in the sickle, because the harvest has come."

 - No cross. No church.

Whoever loves his life loses it, and
whoever hates his life in this world will
keep it for eternal life.

If anyone serves me, he must follow me;
and where I am, there will my servant be
also. If anyone serves me, the Father will
honor him.
